

An Act Relative to Safe and Supportive Schools H3528

H3528 would carry out recommendations of the legislatively enacted Task Force on Behavioral Health and Public Schools whose mandate was to build a framework to create safe and supportive schools with collaborative services and make recommendations to the legislature on implementing the framework statewide. The timeline below describes the many ways Safe and Supportive Schools Framework in H3528 would build upon and strengthen several important initiatives from the Legislature and DESE that are already organized by the framework's six core school operations: (1) leadership; (2) professional development; (3) access to services; (4) academic and non-academic approaches; (5) policies, procedures and protocols; and (6) collaboration with families.
